## EXPERIENCE

Apprentice Sign Installer  
Eugene Sign and Awning | Eugene, OR

February 2019 - June 2022

- Communicated with my journeyman on the job (Planning the install, explaining what was going to happen to the business owner, and communicating with the office about and problems with the install)
- Prepared and assembled signs with hand tools, power tools and equipment.
- Prepared and installed vinyl, digital prints and screw-mounted signs at customer locations.
- Prepared and installed additional components after structural members, including wiring, insulation and valves.
- Placed metal structures with use of cranes and hoists, riding directly on girders to help with positioning.

Apprentice Sign Installer  
Meyer Sign Co | Tigard, Oregon

April 2017 - February 2019

- Corresponded with customers to establish requirements, share design progress and follow-up on installations to identify service issues.
- Prepared and assembled signs with hand tools, power tools and equipment.
- Prepared and installed vinyl, digital prints and screw-mounted signs at customer locations.
- Prepared and installed additional components after structural members, including wiring, insulation and valves.
- Placed metal structures with use of cranes and hoists, riding directly on girders to help with positioning.

Delivery Driver  
United Parcel Service | Portland, OR

September 2013 - April 2016

- Facilitated new business customers from talking to Shipping and Receiving managers on the routes I was delivering.

- Performed manual labor lifting boxes weighing up to 50lbs repeatedly throughout shifts.
- Drove safely in adherence with state and federal laws.
- Met scheduled deadlines while working autonomously in fast-paced environment.
- Interacted with members of public politely and professionally.
- Prepared routes using GPS navigation software and map reading skills.

Package Handler

September 2007 - September 2013

United Parcel Service | Portland, OR

- Achieved high quality and production standards while in high-paced environment.
- Guided freight and stock to and from storage and production areas, loading docks and delivery vehicles.
- Administered classifying tags to containers to provide identifying information.
- Followed work orders and oral instructions to correctly store or ship containers.

## EDUCATION
